- wireless operation with a maximum range of 10m
- charged with a usb cable or wirelessly
- for left and right handers
- plug and play

POUT HANDS4 – WIRELESS COMPUTER MOUSE WITH FAST CHARGING FUNCTION, WHITE COLOUR

Freedom of charging options

A universal microUSB port or the option of wireless charging using any pad compatible with Qi technology?

Depending on the place and conditions, you can always choose a better option. Just put the mouse on the charger and ... done! Don't have a wireless charger nearby? You can always charge the mouse via a regular, general USB port. While charging, the LED indicator will turn red.

Quiet work

Loud sounds made by classic computer mice may disturb our concentration, may be irritating to other people in the room (especially if we work at home) or even embarrassing for the user if we work in a public place (such as a cafe). The Hands4 mouse has been designed with the user's full comfort in mind - it is not only about quick operation. To fully guarantee effective work with the computer and increase the comfort of work, the Hands4 mouse is also completely silent during use thanks to extremely quiet buttons.

Comfort of use

Ergonomic design, comfortable grip and a pleasant-to-touch rubber surface - that's not all. Hands4 guarantees latency-free operation thanks to 2.4 GHz wireless connection, microscopic "plug-and-forget" nano receiver. The lightweight and mobile mouse fits in any laptop bag. Thanks to this, you can work with the same comfort everywhere. Also during business trips, at work or home.

Advanced technologies

The mouse features low energy consumption, automatic sleep after a moment of non-movement, adjustable pointer sensitivity, 360-degree omnidirectional transmission and anti-interference technology. Hands4 ensures free work without tangled cables up to 10 m from the computer and works with Linux, Mac and Windows systems, without the need to install drivers. Freedom without restrictions and the convenience of controlling the computer from a comfortable couch becomes a reality.
